THE DIMORE SAGA

Beyond Surface, Beyond Expectations

Inspired by more : DIMORE comes from the Idea of providing more.
Meaningful Luxury : Thoughtful Design, not just Excess.
Attention to details : Surfaces that elevates, Textures that feels poetic.

"Where design meets Identity"

DIMORE

DIMORE surfaces stepping away from what a typical journey of tiles will look like. We are redefining luxury surfaces through a perfect blend of innovative craftsmanship, technical precision, testing and catering to constantly changing user centric needs.

Every piece we create is beyond the edge. We push boundaries to innovate and master in crafting surfaces beyond design excellence, crafted with passion and precision.

We take pride in our ability to seamlessly merge form and function, beyond the ordinary of what's possible while maintaining the rich heritage of craftsmanship that defines us. With Dimore, going beyond excess isn't just an option, it's part of the plan!

WE GO
BEYOND EXCESS !

SURFACES AND BEYOND

We believe a surface is just the beginning. Our materials are designed to elevate spaces with a blend of craftsmanship, innovation, & timeless appeal pushing the boundaries of design to create spaces that leave a lasting impression.

TECHNOLOGY

SINTERED STONE

Undergoes intense high-temperature heating above 1200°C and is pressure bonded under 44,000 tons, resulting in a robust, naturally fused material, utilizing a unique sand clay formation and advanced Italian GEA PRESS technology, creates a highly durable surface.

DRY GRANULA TECHNOLOGY

Dry Granular Technology employs a distinct glazing technique to eliminate light distortion, ensuring an HD mirror-like reflection.

WHAT DOES IT ACTUALLY MEAN?

- **Granulating Glaze Material**
Grind the glaze material into fine granules using a grinder or mill machine.
- **Application of Dry Glaze**
Sprinkle or apply the dry glaze granules evenly onto the surface of the ceramic tiles using a controlled method such as spraying or dusting.
- **Pressing and Adhering**
Press the granules gently onto the surface of the tiles to ensure adhesion and uniform coverage.
- **Drying Stage**
Allow the glazed tiles to dry completely, ensuring that the granules adhere securely to the surface.
- **Firing Process**
Once dry, fire the tiles in a kiln or furnace at high temperatures to fuse the glaze granules onto the ceramic surface, creating a smooth surfaces.

FORMATS

SURFACES

LUMINOSO

It is the epitome of radiance, reflecting light with unparalleled brilliance.

SETA DURA

It provides the perfect blend of satin-like softness and durability, tough enough to withstand scratches with ease.

OPACO NATURALE

It embraces the subtlety of a matte surface while retaining the authentic essence of natural materials.

FIGURA

It boasts a striking linear highlighting effect making it ideal for enhancing both indoor and outdoor wall facades.

BALANCIO

Built for safety and refined everyday movement. Its subtle micro-texture enhances grip underfoot.

PIETRA NATURALE

It feels like authentic stone & offers slip resistance. It's dust resistant, ensuring a clean and low maintenance surface.

GRANULO NATURALE

Dry granular matte surface resembles the feel of concrete, providing a natural appearance.

BRILLIO

Soft, structured surface that imitates the earthy tones of slate. It's designed with anti-stain & scratch-resistant properties.

OMOGENEA

Full body by nature, ensure that the color & design are not just surface traits, but run consistently from top to bottom.

MULTI SURFACE SPECTRUM

LUMINOSO

Luminoso is a surface that's shiny & smooth, like polished or glossy. It's made extra transparent and enables HD reflections due to use of dry granules. This kind of surface is great for inside places and areas where traffic is low.

SETA DURA

Seta Dura has a soft, matte texture that feels smooth to touch. It's highly durable and can withstand scratches and stains. Suitable for both residential and commercial use on floors and walls, providing a blend of comfort and resilience.

OPACO NATURALE

Opaco Naturale has a soft feel, similar to a baby's skin. It has a natural appearance, resembling marble. This surface is suitable for walls and low-traffic interior floors, adding a refined touch to any space.

FIGURA

Figura surface boasts a striking linear highlighting effect making it ideal for enhancing both indoor and outdoor wall facades.

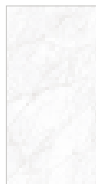

BALANCIO

Its an R10 Anti-skid surface technology designed to bring safety, confidence, and elegance to everyday movement.

MIDAS COLLECTION

The Midas Series draws inspiration from the serene beauty of Japanese Zen gardens, embracing the philosophy of wabi-sabi.

It showcases the elegance of slate, highlighting its unique textures and earthy tones. These surfaces blend rustic sophistication with timeless beauty, offering durability and easy maintenance.

Designed with anti-stain and scratch resistant features, Midas is perfect for high performance residential flooring and wall applications. It delivers both exceptional luxury & practical functionality.

OMOGENEA COLLECTION

The Omogenea Series is a stunning tribute to the raw power of volcanic eruptions. Our artists studied volcanic processes, replicating the intricate cooling and fracturing of molten rock to capture nature's strength and delicate beauty.

Each piece reflects the balance between fire and earth, bringing the timeless beauty of volcanic forces into your space.

SURFACE AVAILABLE: OMOGENEA

THE DESIGNER

Award - winning Danish designer and visual artist Sebastian Holmbäck has spent over three decades shaping design at the highest level.

His work spans furniture, lighting, interiors, product, & exhibition design, always guided by the core values of Danish design: Simplicity, Elegance, & Purpose.

His pursuit of emotional clarity in design has earned him global recognition, including 5 Red Dot Awards (one Best of the Best), 2 IF Design Awards, a German Design Award - Special Mention, and the title of Designer of the Year by Boligmagasinet.

His work has also been celebrated by Tableware International, GIA, Accent on Design (NY), and Formland.

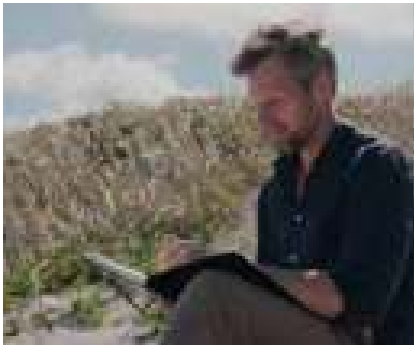

His philosophy comes alive in Omogenea - a surface collection born from volcanic stones, where material becomes meaning. Minimal yet deeply expressive, Omogenea explores surface and sensation. It invites touch, reflection, and presence reconnecting us with the physical touch in a world often ruled by visuals.

NEO COLLECTION

The Neo Series reimagines the enduring legacy of concrete, a material that has defined architecture across centuries. Through the innovative Dry Granulla technique and the refined Granulo Naturale finish, our artisans have elevated its raw beauty, enhancing both strength and sophistication.

The result is a collection that seamlessly merges the timeless power of concrete with modern elegance, offering surfaces of unparalleled luxury and craftsmanship.

"More than a Tile,
A Work Of Art"

Our creativity flows from embracing nature, the beauty of imperfection, respect for the earth, and the purity of materials that tell their own story.

Each piece is born from the inspiration that emerges when design meets the human soul, free from barriers and pretension.

The art of mastering
natural surfaces
