Surface Inspired Beyond Material

DIMORE

WE GO
BEYOND EXCESS!

DIMORE

DIMORE surfaces stepping away from what a typical journey of tiles will look like. We are redefining luxury surfaces through a perfect blend of innovative craftsmanship, technical precision, testing and catering to constantly changing user centric needs.

Every piece we create is beyond the edge. We push boundaries to innovate and mastered in crafting surfaces beyond design excellence, crafted with passion and precision.

We take pride in our ability to seamlessly merge form and function, beyond the ordinary of what's possible while maintaining the rich heritage of craftsmanship that defines us. With Dimore, going beyond excess isn't just an option, it's part of the plan!

NEO

The Neo Series is a tribute to the timeless journey of concrete - a material that has shaped civilizations and defined eras.

From the monumental structures of ancient Rome to the minimalist elegance of modern design, concrete's legacy has evolved, inspiring architects and artists alike. Our artists, deeply moved by this transformation, have carefully reimagined concrete's raw beauty.

Using the Dry Granulla technique, they've captured its tactile essence, preserving the raw texture while enhancing its strength and durability. With the Granulo Naturale finish, they've created refined surfaces that speak of strength, sophistication, and modernity.

The Neo Series is more than a tribute; it's a redefinition of concrete, seamlessly blending the past with the future.

TECHNOLOGY

SINTERED STONE

Undergoes intense high-temperature heating above 1200°C and is pressure bonded under 44,000 tons, resulting in a robust, naturally fused material, utilizing a unique sand clay formation and advanced Italian GEA PRESS technology, creates a highly durable surface.

DRY GRANULAR

Dry Granular technology employs a distinct glazing method to prevent light distortion resulting in HD mirror like reflection and durable finish.

What does it actually mean?

- **Granulating Glaze Material**
Grind the glaze material into fine granules using a grinder or mill machine.
- **Application of Dry Glaze**
Sprinkle or apply the dry glaze granules evenly onto the surface of the ceramic tiles using a controlled method such as spraying or dusting.
- **Pressing and Adhering**
Press the granules gently onto the surface of the tiles to ensure adhesion and uniform coverage.
- **Drying Stage**
Allow the glazed tiles to dry completely, ensuring that the granules adhere securely to the surface.
- **Firing Process**
Once dry, fire the tiles in a kiln or furnace at high temperatures to fuse the glaze granules onto the ceramic surface, creating a smooth surfaces.

KEY FEATURES

Crafted In
Sassuolo, Italy

Proudly crafts all its products, harnessing the essence of Italian design excellence.

Scratch - resistant

Endures scratches, stains, and extreme temperatures, ensuring a long-lasting, low-maintenance surface.

Stain - resistant

Requires minimal care with stain-resistant and durable surfaces, ideal for high-traffic areas.

Consistent
Uniformity

Homogeneous composition ensuring consistent color, pattern and texture throughout.

Unmatched
Design Flexibility

Uniform designs and finishes across various sizes, enabling versatile and seamless combinations.

Modular Sizes
& thickness

Available in large-format slabs and diverse thicknesses for versatile design applications.

Diverse Design
Palette

Offers an extensive array of design choices, simulating natural stone, wood, concrete and more.

Robust
Durability

Endures scratches, stains, and extreme temperatures, ensuring a long-lasting, low-maintenance surface.

Versatile

Suited for both indoor and outdoor applications due to its weather resistant and UV-stable properties.

NEO COLLECTION

Draws inspiration from the Industrial charm of concrete, blending urban elegance with modern design. These surfaces capture the essence of the city, offering a sleek, contemporary aesthetic that complements both minimalist interiors & avant-garde spaces.

MASTERFUL BLEND OF HERITAGE & MODERNITY

The Neo Series reimagines the enduring legacy of concrete, a material that has defined architecture across centuries. Through the innovative Dry Granulla technique and the refined Granulo Naturale finish, our artisans have elevated its raw beauty, enhancing both strength and sophistication. The result is a collection that seamlessly merges the timeless power of concrete with modern elegance, offering surfaces of unparalleled luxury and craftsmanship.

SURFACE SPECTRUM

GRANULO NATURALE

The "Neo Collection" features a dry granular matte surface known as "Granulo Naturale." It resembles the feel of concrete, providing a natural appearance. The surface offers excellent slip resistance, making it safe for various applications.

OVERVIEW

The Neo Collection presents six meticulously crafted surfaces - Bianco, Burro, Manteca, Gris, Chiro and Carbone. Each surface draws inspiration from the concrete textures but the tones are extracted to make the concrete feel more warmer and welcoming.

MODULARITY

We offer tiles in various sizes, providing flexibility to suit different design needs and ensuring a perfect fit for any space.

ENVIRONMENTAL
SUSTAINABILITY

From production to end result, we optimize all the processes, focusing on energy optimization, waste management, & promoting environmental health to ensure a sustainable future at every step.

ENERGY OPTIMIZATION

Efficient methane gas co generation plant

Heat recovery from furnaces & cooling water

CHP vapor recovery with 40% savings in methane gas

100% LED lighting. 50% annual power saving

WASTE MANAGEMENT

100% recycled Raw & cooked waste

90% waste sent to recovery

100% recycled industrial water & 27% reduction in water consumption in 3 years

100% recyclable packaging material

ENVIRONMENTAL HEALTH

Continuously operating purification & filtration system

RTO system to reduce harmful emissions & odors

Automated vertical warehouse. 60% reduction in CO2

0% Lead, Cadmium & other carcinogenic substances in product.

INSTALLATION
& CLEANING

Proper cleaning post-grouting is crucial to remove residue from installation products (cements, resins, grouts, waxes, fats). Use appropriate cleaners for optimal results, especially for stubborn dirt and long-term maintenance.
