SERENE SPA

FOR A BLISSFUL EXPERIENCE

Our spa range offers dynamism to your everyday journey of freshness and well being. You can easily dive into elaborates realm of the serene spa long with the benefits of costs efficiency and moderate energy consumption in its features.

SUPERIOR CABINET INSULATION

Retains heat from the pump and insulates it from losing heat due to the environment around. this helps in decreasing losses of heat and running costs. You can have a tranquil spa experience without any worry related costs and energy.

POWER SAVING SMART METER

The power saving option in our smart meter allows the user to regulate the energy consupction and usage to a large extent. The software enabled to maintain the consumption allows filtering and heating also. You can effectively control the meter and the system according to your preference.

PAPER FILTRATION SYSTEM

paper filtration system consist of a pleated paper or polyester element. that fit inside a cylindrical space formed into the side of a fiber glasses shell, spa shell, or the cartridge fits inside a small round canister located near the pump. dirty water in the spa ls drawn in around the outside of this filter element and passes through the elements. the dirt and deberis is then filtered properly and circulated back to the spa as clean abd safe bathing water.

OZONIER

Elevate your spa experience by ozone generation into your spa. the oxidizing property removes the bacteria from the water, leaves no residues and helps you to have an enriched spa journey.
