Surface

Our creativity flows from embracing the natural, the beauty of imperfection, respect for the earth and the purity of a material that tells its own story. Each piece is born from the inspiration that comes when design meets the human soul, free from barriers and pretension.

Easy to clean and maintain

Our slabs are simple, fast and easy to clean. They have no special maintenance requirements as time goes by; generally speaking, all you need to clean the surface with is warm water and a neutral detergent.

Resistant to mould and fungi

Our surfaces do not allow mould, bacteria or fungi to grow.

Resistant to staining

Our surface is not affected by prolonged contact with products commonly found in the kitchen that can cause staining, such as wine, coffee, olive oil or lemon juice, and its colour or shine will not be affected permanently.

Resistant to chemicals, acids, alkalis and solvent

Our surfaces are not affected by organic and inorganic solvents, chemicals and disinfectants. The only chemical that can damage ceramics is hydrofluoric acid.

Hygienic surface

Our surfaces are ideal for application in places where maximum hygiene is needed.

Impervious surface

Our surface porosity is average 0.1%

Resistant to humidity

The ceramic surface of our slabs are not affected by long-term humidity exposure.

Resistant to scratches and abrasions

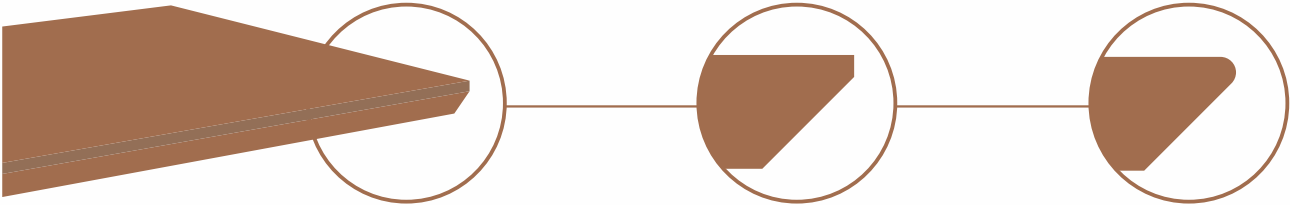

Our tiles are resistant to scratching and deep abrasion. Its properties do not change even if it is subjected to intensive use and frequent cleaning.
